COMMUNITY ACUPUNCTURE

hemma community acupuncture clinic is about bringing patients and practitioners together to create healthy, mutually beneficial communities.

WHAT MAKES US DIFFERENT?

Most acupuncturists in North America treat patients on tables in individual rooms. This is not traditional in Asia, where most acupuncture usually occurs in a community setting. In our clinic we use recliner chairs, arranged in a large, quiet, soothing space. Treating patients in a community setting has many benefits: it's easy for friends and family members to come in for treatment together; many patients find it comforting; and a collective energetic field becomes established which actually makes individual treatments more powerful.

AFFORDABILITY

Most of us can't afford health services that are not included within our existing health plan. *hemma* community acupuncture strives to make acupuncture affordable for you to come as often and for as long as needed.

Our sliding scale is \$25 - \$45 per treatment*

You decide what you can afford. The purpose of our sliding scale is to separate the issues of money and treatment; we want you to come in often enough to really get better and stay better!

We understand that everyone's situation is different, and our primary goal is to make acupuncture available to you as often as you need it.

Everyone coming for treatment is part of our community and we look forward to making treatment work for you.

* There is a one-time \$10 new patient fee for first appointment.

* We have a 24 hour cancellation policy.

*\$20 fee for missed appointments.

In 1997, a consensus statement released by the National Institutes of Health found that acupuncture is useful to treat:

- addiction
- headaches
- menstrual cramps
- tennis elbow
- fibromyalgia
- myofascial pain
- osteoarthritis
- lower back pain
- carpal tunnel syndrome
- asthma.

WHAT CAN ACUPUNCTURE DO FOR ME?

Acupuncture is one of the oldest, most commonly used systems of healing in the world. Originating in China some 4,000 years ago, only in the last three decades has it become popular in North America.
